

HI LIFE
Villa Rental

Zest for tropical life

High-style meets high-living, with a wealth of contemporary luxuries overlooking Koh Samui's stunning coastal seascapes.

Lime
SAMUI

Perched in the hills above Koh Samui's quaint port of Nathon, the ultra-luxurious Lime Samui Villa 2 and Villa 4 offer breathtaking panoramic views across the azure seas and islands, including vistas of the famous Anghong Marine Park, the Five Islands, and the fishing boats and ferries arriving and departing the island, not to mention some of Samui's most dramatic sunsets.

With contemporary open-plan designs by renowned Bali based GFAB Architects, and intelligent, uncompromising living spaces, the villas display a distinctive, innovative character that breaks away from the more typical island villa layouts. There are no standalone pavilions, instead, everything is conveniently contained within a single, spacious, multi-level property that merges with the natural topography to offer a unique private tropical lifestyle experience. The rooms open onto the tropical island surroundings, providing a seamless integration of indoor and outdoor spaces, with a generous negative-edge pool as a centrepiece, its cooling waters merging with the ocean vistas for the ultimate sense of liberating escapism.

Lime Samui Villa 2 is an expansive private residence that covers three levels with five en-suite bedrooms, eight bathrooms, a poolside seating sala, spa area with two massage beds and pedicure chair, a fully equipped Life Fitness gym, games room with 'X-Men' red pool table, library/study with sun deck 'floating' on the reflecting pond. The villa also boasts a deluxe

private cinema with a three-metre screen and built-in reclined seating for 12-20 people. The villa sleeps up to 12 and all the bedrooms are airy, spacious, beautifully furnished, and carefully positioned to take in the breathtaking coastal vistas. All have flat screen TVs, large built-in wardrobes, personal safes, and the en-suite bathrooms featuring walk-in rain showers. Two of the bedrooms also boast indulgent, Jacuzzi baths with waterfall features and therapeutic lights.

Lime Samui Villa 4 extends over three separate levels offering guests an impressive choice of private and communal areas to relax and enjoy the surroundings in style. The Great Room combines a comfortable lounge, dining area and fully fitted western kitchen, each one positioned at different levels connected by steps. Comfortable sofas in the sunken living space are poised before a wall mounted, flat screen TV, while a 10-seater dining table awaits evening meals prepared in the modern, luxury fitted kitchen and fine vintage kept cool in the enormous wine fridge. Four out of five bedrooms boast free standing bathtubs and all have rain showers. There's also a dedicated children's room close to the living and dining area, which has been kitted out with flat screen TV suitable for 3D movies and Sony Playstation games, as well as several large beanbags for the kids to laze around on. Outside, a trampoline and play area will keep the children happy for hours.
